

GALILEO DATABASES

A QUICK REFERENCE GUIDE TO USING MLA STYLE

General Guidelines for Writing a Works Cited Entry for a Database Source:

1. Cite information for the original source following MLA style for printed sources but omit "Print" at the end.
2. Give the title of the database (*italicized*).
3. Give the medium of publication (Web, followed by a period).
4. Give the date of access (day/month/year, followed by a period).

NOTE: Instructors may request the inclusion of GALILEO (in all caps, followed by a period) after the title of the database; however, MLA does not require it.

REMEMBER: All Works Cited entries are double spaced.
