What is a QEP? The letters “Q,” “E,” and “P” stand for Quality Enhancement Plan, which is a requirement of our reaffirmation of accreditation as a college with SACS-COC (our accrediting agency).

What is the theme of our QEP? Our QEP’s theme is the EDGE (Engagement Drives GPC Education).

Who selected the theme? A committee composed of faculty, staff, student, and community representatives (you can see the complete list of participants on the website below) developed GPC’s QEP theme.

What does the QEP mean for students? The college community (faculty and staff) will be doing things to intentionally ENGAGE you on campus and in your classes. We will be doing things that we believe will improve your learning and your college experience!

Does everyone have to participate? Students, faculty, staff, and community members should be knowledgeable about the QEP; however, not every stakeholder will participate directly in a QEP course or themed activity. Everyone on GPC’s campuses must know WHAT the QEP is (the EDGE) and WHY we are doing it (to improve student learning).

How can I help? You can help by:
• Becoming ENGAGED CITIZENS of GPC,
• Enrolling in an “EDGE” class,
• Interacting with faculty outside of class,
• Participating in on-campus and off-campus activities like student clubs, GPC READS, and Days of Service, and
• Responding to student surveys when requested.
