turnitin.com

What is turnitin?  
• A proprietary system that instantly identifies papers containing unoriginal material and acts as a powerful deterrent to stop student plagiarism before it starts.  
• Students or Faculty will upload papers to the turnitin website, once uploaded the papers will be checked against a database for originality, and then an originality report will be generated for the instructor to view.

How do you “get” turnitin?  
• Request the Account username and join password from OIT  
  – http://www.gpc.edu/oit/software  
  – Go to http://turnitin.com and create a user profile.
Let’s Look at How to do Setup…

• Create additional classes
• Create Assignments
• Upload a paper
• Check the Originality Report

How do Students use turnitin?

• The instructor must communicate the class ID and password to the student.
  – i.e. class id: 1762465 password: quadratic
• Then the student must create a profile and use the id and password given to them by the instructor.

How do Students use turnitin?

• Login
• Upload a paper
• View Originality Report
