Georgia Perimeter College

Learning and Tutoring Center (LTC)
Overview of Online Resources

• We love to see students in person at our Learning and Tutoring Centers, but we understand that is not always possible.

• Much of the information contained in this presentation will point you to the specific parts of the LTC website that will address your needs.

• Links to specific pages are underlined, so that you can go directly to that page without having to dig through the entire website.
What is the LTC?

- The Learning and Tutoring Center provides tutoring to students attending Georgia Perimeter College. We offer one-on-one tutoring, group tutoring and online tutoring in English, reading, mathematics, business, applied technology and the sciences.

- The LTC offers many types of tutoring assistance such as: drop-in individual and group tutoring sessions, scheduled study groups, and online tutoring. Students are encouraged to use the LTC as a place to study, do homework, and complete assignments. Tutors are always available if a student has questions.

- For drop-in tutoring sessions, all LTC locations will use 15-30 minutes as the session length guideline. Session length guidelines are designed to respond to the need for a balanced approach to providing effective and efficient tutorial sessions which meet student needs.
Online Tutoring

• In addition to our face-to-face tutorial services, the Learning and Tutoring Center offers online assistance. To submit questions or papers electronically, visit our Online Tutoring page for more information.

• The LTC offers online tutoring for the following subjects:
  • English/Writing
  • Math
  • Computer Science
  • Science
  • Business
COMPASS Preparation

- The best place to look for reading and writing COMPASS test preparation is on the LTC website, under the link “COMPASS Prep,” and then “Writing/Reading or Math.”

- Some handouts are especially useful for COMPASS test preparation, such as “COMPASS Reading Test Strategies” and “Math practice Compass Forms.” The LTC website provides a specific list here.

- The LTC also provides links to outside websites that provide learning and test preparation resources.

- If you are able to come to one of the LTC locations in person, you are welcome to take a practice COMPASS test.
English as a Second Language (ENSL)

• ENSL courses focus either on grammar or reading, and the LTC provides assistance with both.

• **Handouts** that are useful for English grammar start with the basics, such as: “Parts of Speech,” “Articles,” “Verbals,” and “Punctuation Reference.”

• **Handouts** that are useful for reading include, but are not limited to: “Reading Tips,” “Understanding How to Read Difficult Text,” and “Reading Test Saavy.”
English Composition I (1101) and II (1102)

• English Composition I challenges students to write different types of essays, and begin to develop research skills. English Composition II emphasizes analysis and further development of research skills.

• Helpful handouts for both 1101 and 1102 include, but are not limited to:
  • Argumentative Essay, Descriptive Essay, Expository Essay, and Narrative Essay
  • Annotated Bibliography
  • How to Write a Research Paper
  • The Thesis Statement
  • Step by Step Editing Guide and Paramedic Proofreading.
Math

• Math classes range from Pre-college Algebra (Math98) to Differential Equations (Math 2652). These classes challenge students to understand mathematical methods and theories.

• Helpful math handouts are found below, please find the full list on the LTC Website
  • Algebra Review
  • Linear Equations
  • Factoring
  • Word Problems
Chemistry and Physics

• In chemistry and Physics classes you will learn and gain the tools to understand the world around you.

• Helpful handouts for Chemistry and Physics are also available to you on the LTC website.
LTC Workshops

• LTC workshops are focused, but informal opportunities for skills development. Topics are drawn from math, reading, writing and business, and vary each semester. Sessions are designed and facilitated by tutors and/or faculty with an emphasis on making learning interactive and engaging. To see the current workshop schedule for each campus, visit our Workshops and Events page.
Additional Resources

- Check the LTC website for tutoring schedules at each campus, as well as workshops on specific topics.
- GPC’s libraries are excellent sources for sources and assistance with research.
- GPC’s Online Writing Lab (OWL) is an excellent resource for general writing, as well as MLA and APA formatting.
- The LTC also offers other resources to help student excel in their classes.
Thank You!
