Math 1111 Curriculum Committee minutes
November 4, 2005, 12:00 – 3:00pm, Dunwoody Campus, E 2515

Members Present: Kimberly Bennekin, Wilma Boulware, Ashraful Chowdhury, Karline Feller, Mary Sue Hall, Ann Hardy

Absent: Mohammad Aslam, Susan Keener, Susan Keith, Dorian Wilkerson

The committee went over the individual review of the textbooks sent from the publishers. We checked to see if all the material from the expected educational outcomes were covered in each text and we discussed the style and presentation of the texts as well. The committee will continue forward with 11 textbooks. For the next round, the committee will continue to review the EEO's for the textbooks as well as consider other criteria (such as homework problems, supplements, etc.).

The Math 1111 Assessment tool and instructions were given to each committee member. A committee representative from each campus has a copy of the assessment for instructors to review. Everyone teaching 1111 this semester should receive copies of instructions and information this week.

The meeting was adjourned at 5:00pm. The next meeting is scheduled for Friday, Nov. 18th at 3pm on Dunwoody campus.
