Math 1111 Curriculum Committee minutes
November 18, 2005, 3:00pm, Dunwoody Campus, E 2515

Members Present: Kimberly Bennekin, Wilma Boulware, Ashraful Chowdhury, Mohammad Aslam, , Mary Sue Hall, Ann Hardy, Susan Keith

Absent: Karline Feller, Susan Keener, Dorian Wilkerson

The committee reviewed the remaining textbooks sent from the publishers. We ended up with 5 books left on the short list. Before completing the list of strengths and weaknesses, the committee will schedule times for the publishers to come in and give presentations on their textbooks (explaining supplements and other features of the texts) sometime in early January.

The Math 1111 Assessment tool will be distributed to faculty earlier than originally scheduled, due to questions about faculty teaching night and weekend classes. This will also give the faculty an opportunity to see what will be covered on the assessment.

The meeting was adjourned at 4:30pm.
