This year’s committee consisted of the following members:
Susan Keith – Chair
Donna Brouillette
Mary Ellen Davis
Todd Hendricks
Sharon Keener
Margie Lewkowicz

The committee was informed by John Cross, book representative for the current John Weiss book, that it would no longer be available and whether we wanted to switch to the new edition. The new edition’s title is the 7th edition to the current John Weiss book, Introduction to Statistics. The committee agreed to switch but not until Fall 2004 and to continue with the current book this summer. Todd Hendrix has agreed to do a revised Course Guide for the new edition.

For next year the committee has been asked to look into the possibilities of an Honor Statistics Course.
