End of Year Report for Math2030 Committee 2003-2004

Chair: Carolyn Spillman
Members: Mary Ellen Davis, Mary Sue Hall, Bob Koff, Virginia Parks, Gerri Pringle, John Weber

During Fall semester 2003 the committee completed a textbook search and selection. Teaching Guides were written for each textbook and posted at the MCSE website. Activity manuals and some manipulatives are packaged with each textbook. A corrected Teaching Guide for the O’Daffer text will be posted to the MCSE website by the end of spring semester 2004.

NEXT YEAR:
The committee should review the new teaching guides and make any improvements/corrections noted during their use.
Acquire more manipulatives for the course.
Investigate the possibility of incorporating a service learning component to the course.
Determine if the course can be taught as a hybrid or online course.
Develop liason role to Education faculty.
