Student Activities 2004-2005

1) Campus  
   Rockdale

2) Math Club?  
   None

3) How do you recognize your outstanding math and/or computer science students?

   We give one award at our Honors Banquet in the spring. It is given to the outstanding Rockdale Mathematics Student.

4) What activities besides the AMATYC SML test, does your department have for students? For example, calculator workshops, question of the month contest, special speakers, field trips.

   In the past we have given calculator workshops. I don’t think any were given this year.
